javiyamanan11@gmail.com | +91 9879674792 | [LinkedIn](#) | [GitHub](#)

PROFILE SUMMARY

Computer Engineering student with experience in machine learning, backend development, and real-time applications. Skilled in building scalable systems using MERN, .NET, and integrating ML libraries into practical applications.

SKILLS

Languages: Java, Python, C, C++, JavaScript, TypeScript, PHP, C#

Web Technologies: Node.js, Express.js, React.js, Django, .NET Core (MVC), REST APIs

Machine Learning: Scikit-learn, Pandas, NumPy

Database: MongoDB, MySQL, Firebase

Tools: Git, GitHub, Postman, VS Code Extension Development

PROJECTS

Cognitive Pattern Decoder

- Developed ML-based system to analyze code patterns and generate insights.
- Built VS Code extension for real-time suggestions and pattern detection.
- Designed backend APIs for handling prediction workflows.

Real-Time Chat Application

- Built MERN-based chat system using Socket.io for real-time communication.
- Implemented scalable backend and efficient message handling.

ExpoEase (Exhibition Booking System)

- Developed .NET Core MVC application for managing bookings and event scheduling.
 - Implemented role-based authentication and structured database design.
-

EXPERIENCE

7Span | AI Intern (May 2025 – June 2025)

- Worked with AI concepts and contributed to development workflows.
 - Gained exposure to real-world data handling and system design practices.
-

EDUCATION

B.Tech Computer Engineering,Dharmsinh Desai University (2023–2027) |CPA: 8.31

Class XII, SS Divine School | 84.86 Percentile

Class X, Nirman High School | 93.9 Percentile

ACHIEVEMENTS

- Completed Data Science & AI internship from **IIT Jammu**.
- Developed ML-integrated **VS Code extension** and multiple full-stack applications.
- Gained industry experience through internship at **7Span**.
